

Sunzee1 — Before You Invest

PUBLIC ADVISORY • [sunzee1.app](#) • INDEPENDENT • NO REFERRAL LINKS

VERDICT: This is an unregulated investment scheme. We advise against depositing.

The one number that settles it

Sunzee1's own "Photon" plan advertises **0.1% profit per hour**. That is 2.4% per day. Compounded, it works out to over **6,000,000% a year**. A real solar power plant returns roughly **5–12% per year**. No technology closes a gap that size. The only thing that can pay those returns is the deposits of people who join after you — which is the definition of a Ponzi structure.

Six warning signs, all present

- 1 Fixed daily/hourly returns no real asset can produce
- 2 Owner anonymous — no company, no directors, no address
- 3 No SECP or any regulator authorisation
- 4 Deposits via irreversible crypto (USDT / TRX / BEP20)
- 5 Income depends on recruiting others (5-level referrals)
- 6 Small early withdrawals that build false confidence

THE RULE: If you are ever asked to pay a fee, tax or "unlock charge" before a withdrawal is released — STOP. Never pay it. That request is the scam's final stage, not a step toward your money.

Roman Urdu — Yaad rakhein

Jo platform aap ko roz ya ghanatay ka fixed profit de raha ho, woh solar se nahi — woh naye logon ke deposits se de raha hai. Jab naye log aana band hote hain, withdrawal ruk jati hai.

Fees, tax ya "unlock charge" kabhi na bharein — yeh sirf nuqsan barhata hai. Crypto (USDT/TRX) bhejne ke baad paisa wapas nahi aata. Referral link dene wale ko aapke join karne par commission milti hai — woh review nahi, ishtihaar hai.

Already lost money? Report it in Pakistan

NCCIA (National Cyber Crime Investigation Agency) — Portal: [complaint.nccia.gov.pk](#) | Helpline: **1991**. Save all screenshots, transaction hashes (TXIDs) and chats first. Refuse anyone who offers to "recover" your funds for an advance fee — that is a second scam.
